

VITRO S5

VITRO

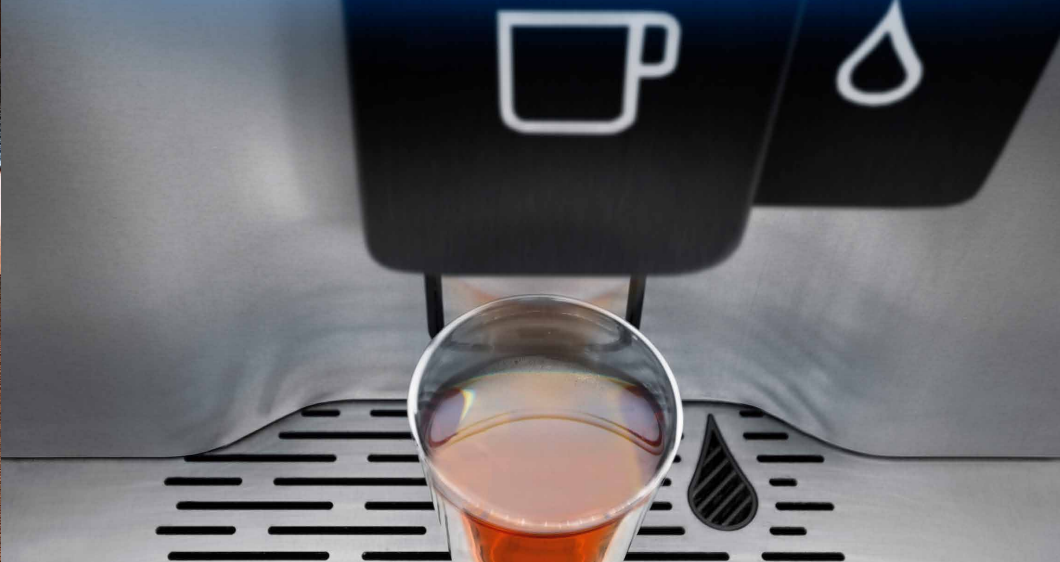

The Vitro range of professional hot beverage machines are designed with attention to detail. Every aspect enhances the user experience, the culmination of which sets the Vitro apart from other beverage systems.

COFFEE PERFECTION

The Vitro high pressure brewing system and twin coffee pouring spout ensures that the highest standards of coffee are reached. This, combined with the milk soluble technology, provides a complete menu of high quality beverages.

THE ULTIMATE EXPERIENCE

The pleasure of drinking a coffee should start from the beginning. The Vitro S5 attracts consumer attention and guides it through a pleasant selection journey – the touch selection menu is built in a smoked glass door with realistic and intuitive design. This, together with the intelligent display and lighting system, assures the user enjoys the ultimate experience when ordering a hot drink.

VITRO S5

LATEST TECHNOLOGY & A CUTTING-EDGE DESIGN

The Vitro range incorporates the most innovative technology. The stunning look of the Vitro has been designed to match current market trends and to ease the maintenance of the machine. Combining stunning design and proven robust technology, Vitro is at the cutting edge of hot beverage dispense systems.
